### For Ministers Living in a Church Owned Home

- Omit items 1, 2, 3 and 4 from the "Housing Allowance". The fair rental value of the provided home plus any utilities paid directly by the church are a part of the total housing. Those values are included as part of the total compensation, and reported for Self-Employment Social Security purposes.
- Include item 5 if providing insurance on the contents
- Include in item 6 only those utilities being paid by the minister as part of the Housing Allowance.
